Update to Friends and Supporters

Tonight we have 10 families on the Sapphire Coast staying from Eden to Bermagui due to the generosity of our supporters. We have 15 more families arriving before the end of June and have already accommodated over 30 families who have all been highly appreciative of your support.

However we continue to receive requests from families devastated by the Victorian Bush Fires. Some families have lost homes, families and possessions, some stayed and saved their home and are now suffering the stress of the experience and what they witnessed. Suffice to say, all these folk need a break and a breath of Sapphire Coast fresh air.

If you are able to assist with complimentary accommodation, please contact me, directly or via return email to who ever passes this on to you.

We greatly appreciate the generosity the Sapphire Coast has shown and hope you may be able to assist with one of the following requests.

Yours Faithfully

Steve
